**Make your device**  
**ideally clean!**

[www.colorway.com](http://www.colorway.com)

TM ColorWay cleaning kits are new solution in device and delicate surfaces care. Cleaning kits, brushes, wipes and cleaning liquid are all tools for maximum and effective cleaning of various types of pollution.

Universal, portable and professional kits are ideally fit for cleaning of LED/TFT/Plasma screens, computers, laptops, keyboards, optics and for cleaning of CD's, glasses and leather products.

Nano Cloth and Microfiber cloth can be considered as preventive products. Their regular use reduces a necessity in cleaning liquid. Professional cleaning brushes are designed to fit specially for all surfaces are needed to be cleaned. They are soft, nylon, with small, resistant bristle of various length. And each of TM ColorWay cleaning liquid is designed for a particular product: screen cleaning, optics devices, CD/DVD disks or more rigid and dirty surfaces.

Product range of TM ColorWay cleaning kits is very wide and each customer can choose the necessary, quality and at affordable price kit for any device.

TM ColorWay makes life of your devices longer!
